

# TM HAIR DESIGN & Spa

...we love making you look good

About Me  
**Hi! I'm Jenny**  
owner & stylist

*It feels like we have one giant family*

Jenny LOVES people. She loves people so much that she has dedicated her entire career to serving others and building a family of customers.

Jenny started working at TM Hair Design 23 years ago as an employee. TM was only a 4 chair salon at the time. She loved interacting with people all day long so much that when she was given the opportunity, she bought the salon.

Jenny has called Bloomington/Normal her home her entire life and couldn't imagine a better place to live.

She currently lives with her husband Jim and son Timmy. Timmy plays football for Washington High School. They also have daughter Maddie who attends ICC on a Volleyball scholarship and son Joey who plays football for ISU. They definitely consider themselves a sports-centered family.

About Me  
**Hi! I'm Mickey**  
owner & stylist

*I love that we have stylists of all kinds*

Mickey is the younger sister of Jenny and is co-owner in the salon with her. Mickey didn't always know she wanted to work in hair.

She began her career studying biology at Illinois State University. After college, she began searching for the perfect career. Knowing she had no desire to work in a cubicle, and having that same deep love of people like her sister, she bought into the business and never looked back.

The two things Mickey loves most about serving others through hair services are the clients and the stylists. She loves that TM Hair Design & Spa has so many different kinds of stylists. There is someone for every type of customer.

“Our customers are like family. We know their birthdays, their dog's names and their grandmas.”

Mickey and her husband Tony live in Bloomington with their puppy and love being an aunt and uncle to Jenny's kids. Tony works full time as a teacher at Central Catholic and owns Killarney's Irish Pub in downtown Bloomington.
